

AFTER SCHOOL SOCCER

Learning and fun after the final bell!

Our after school programs focus on introducing and developing each player's soccer skills, as our International coaches follow an innovative curriculum that combines drills and games in a relaxed and fun environment to encourage development.

Each of our weekly classes focuses on a particular soccer skill and progressively increases in difficulty, challenging each player to succeed and improve.

Participants will also receive access training content along with free skill-building videos through Challenger Virtual, motivating players to practice more at home!
