

ST.MARKS

WINDTREE PROGRAM

MARCH 12TH - MAY 7TH

WEDNESDAYS

NO CLASS APRIL 23

GRADES: K-4TH

3D Design and Printing

Students will learn the core principles of 3D design and explore TinkerCAD software, designers, architects, and engineers. Each student will have the chance to design, create, and print their own custom 3D models, gaining hands-on experience with the tools and techniques of the trade.

Feel free to **register** or contact using the information below.
